PREFACE

This directory provides a listing of key personnel involved in the nation-wide USDA Emergency Organization formed to carryout the Secretary's statutory and Executive Order emergency preparedness responsibilities. The Emergency Organization has three major subdivisions: a Headquarters unit, 10 Regional units, and State and local units.

HEADQUARTERS. The Emergency Programs Staff in the Office of Personnel, under the Assistant Secretary for Administration, Office of the Secretary, directs and coordinates the Department's emergency preparedness program.

In support of the Emergency Programs Staff, each USDA agency with essential uninterruptible functions, appoints an Agency Emergency Program Contact to coordinate and assist the Staff in accomplishing its responsibilities.

REGIONAL. USDA maintains a Regional Emergency Staff (RES) in each of the Standard Federal Regions to provide liaison and coordination with other Federal Department and Agency regional organizations. The Chairperson for each RES is selected from the membership and receives direction, guidance and assistance from the Headquarters unit. The RESs do not have line authority over program operations, but serves as the Department's Regional contact with the Federal Emergency Management Agency Regional Headquarters. Should a situation occur involving communication cut off with the national headquarters the RES would provide direction for all USDA programs within the region. Emergency responsibilities include, but are not limited to the following:

- Maintaining liaison with other Federal departments and agencies, exchanging information on attack effects and availability of resources.
- Presenting food and agriculture claims at the regional level for materials, personnel, equipment, supplies, and services under the jurisdiction of other Federal departments and agencies.
- Providing direction for all USDA programs within the region when communications are cut off with the national headquarters.
- Representing the Department on the Regional Emergency Resources Board.
- Channeling emergency information between field representatives and the national headquarters.

STATE AND LOCAL. There is a USDA Food and Agriculture Council (FAC) in each State comprised of agency officials who coordinate USDA activities at the State level. The FACs work with State and local governments and community organizations in order to make USDA programs more efficient and responsive to the needs of the people. The ASCS State Executive Director has been appointed to serve as FAC Vice-Chairperson, Emergency Programs, in each state and is responsible for providing leadership and coordination for all USDA emergency programs at the State level. The FAC Vice-Chairperson receives direction, guidance and assistance relating to emergency programs from the Headquarters unit with one exception. Should there be a communication failure between Headquarters and the Region, the FAC Vice-Chairperson would receive guidance from the Regional Emergency Staff. Emergency responsibilities include, but are not limited to the following:

- . Coordinating preemergency preparation and postattack operations of USDA emergency programs at the State level.
- . Administering USDA natural disaster assistance programs at the State level.
- . Preparing and executing emergency programs not assigned to any one agency.
- . Providing emergency activity guidance to local FACs.
- . Maintaining liaison with State government officials on emergency and natural disaster matters.

OTHER FEDERAL GOVERNMENT DEPARTMENTS AND AGENCIES. The Federal Emergency Management Agency (FEMA) provides a single point of accountability for all Federal emergency preparedness, mitigation and response activities. The Emergency Programs Staff serves as the primary point of contact with FEMA at the Headquarters level. The RESs serve as USDA contacts with the FEMA Regional Headquarters also situated in the 10 Standard Federal Regions. FEMA emergency responsibilities include, but are not limited to the following:

- . Ensuring continuity of government and coordinating mobilization of resources during national security emergencies.
- . Supporting state and local governments in a wide range of disaster planning, preparedness, mitigation, response, and recovery efforts.
- . Coordinating federal aid for Presidentially declared major disasters and emergencies.
- . Developing practical application of research to lesson the damaging effects of emergencies and disasters.
- . Determining which materials are strategic and critical, and setting goals for the national defense stockpile.
- . Coordinating civil radiological preparedness for defense, power plant accidents, and nuclear accidents.

The U.S. Department of Commerce has appointed, at the request of USDA, a representative from the National Marine Fisheries Service, National Oceanic and Atmospheric Administration to assist the State FAC Vice-Chairperson in States with commercial fishing and fish processing facilities.

Emergency Programs

OVERALL PROGRAM DIRECTION AND COORDINATION

Leonard P. Mandrgoc
Chief, Emergency Programs

Com: 202-447-5711
FTS: 447-5711
Res: 703-860-8008

Buster E. Horton
Emergency Programs

Com: 202-447-5711
FTS: 447-5711
Res: 703-491-6751

When possible, information concerning emergencies should be reported through the channels established in the USDA Emergency Operations Handbook. However, if necessary, emergency calls may be directed to the Department as follows:

- A. During normal duty hours (8 a.m. to 4:30 p.m. Eastern Time), telephone FTS 447-5711.
- B. The personnel listed above may be called during non-duty hours at their residence in the case of a serious emergency requiring immediate mobilization of USDA resources.
- C. Information may also be transmitted to a 24-hour automatic telecopier in the Emergency Programs office, telephone FTS 447-7708.

Mailing address for personnel listed above:

Name
U.S. Department of Agriculture
Office of Personnel, Emergency Programs
Room S-302, South Building
Washington, D.C. 20250-9600

NOTE: The names of former staff personnel should be removed from all mailing lists.
